1. Most of the offices of the East German State Secretariat for Chemistry are located at Leipziger Strasse 5/7. Some of the main administrations of the State Secretariat are located outside the building, however. The Main Administration for Potash and Non-Ore Mining is located at Unter den Linden 53 and the Main Administration for Synthetic Materials and the Main Administration for Organic Chemistry are located at Jaegerstrasse 9. The State Secretariat employs a total of about 480 persons.
2. The State Secretary for Chemistry is Dr. Werner Winkler, who is a member of the SED and a National Prize winner. The State Secretariat is divided into five main administrations:
 - a. Main Administration for Heavy Chemistry, headed by Grueneberg, (fnu) (SED), who is about 38 years old.
 - b. Main Administration for Liquid Fuels, headed by Golle (fnu) (SED), who is about 40 years old.
 - c. Main Administration for Potash and Non-ore Mining, headed by Helmut Richter (SED), about 38 years old.
 - d. Main Administration for Synthetic Materials, headed by Ernst Richter (SED), about 39 years old.
 - e. Main Administration for Organic Chemistry, headed by Dr. Werner Domnick (SED), about 33 years old.
3. The following central departments (Centrale Abteilungen) belong to the State Secretariat:
 - a. Central Cadre Department - headed by Martin Mrochen (SED), about 25 years old.
 - b. Central Planning Department - temporarily under the supervision of Anton Mahner (SED), about 28 years old.
 - c. Central Investment Department - headed by Werner Bollerey (SED), about 38 years old.
